

# Synergy Series Dual Colour Remote Controller

## DU-W-R

### Dual Colour Remote Controller

- Ultra sensitive touch colour wheel ensures smooth, accurate, and fast colour selection.
- Can control up to four separate zones.
- Designed to be used with the RGBW-W-RC receiver.
- Change the colour temperature at any time by touching your finger on the colour wheel.
- 3 favourite colour temperatures can be saved to each zone.
- Accurate colour temperature and brightness adjustment for natural white, warm white & white.
- Smooth dimming without flickering.
- Receivers can work in conjunction with the WIFI-C converter.
- Dimming function.

*The DU-W-R single colour remote controller is used with the RGBW-W-RC Synergy Series receiver to enable full control of dual colour LED lighting across multiple zones.*

*Dual colour LED lighting is ideally suited for use in jewellery store display cabinets to enhance the display of quality jewellery.*
